

Residential Solution

VoX Communications 12249 Science Drive • Suite 135 • Orlando FL 32826 • (866) 869-9475 • www.voxcorp.net

Take Home a Bundle of Phone Features

Residential and small business customers can have a high-quality voice solution via their existing Internet connection while utilizing the latest VoIP technology. VoX supports the Linksys SPA2102 ATA which will give your customers two toll-quality voice lines and carrier-grade features. All they need to do is plug their broadband Internet connection into the SPA2102 and we will do the rest! Once the ATA is connected to an analog phone or fax machine, the service is remotely provisioned, configured, and maintained by VoX.
